

Dear Contractor

Transfield Services Pty Ltd (TSA) acting in its position of Managing Contractor of the Northern Victoria Irrigation Renewal Project (NVIRP) is seeking competent Contractors who are interested in being appointed to a panel for the following works:

- ❖ Direct suction lines;
- ❖ Removal of existing regulators and private occupation crossings;
- ❖ Removal and reinstatement of redundant irrigation Dethridge wheels;
- ❖ Decommissioning of spur channels;
- ❖ Installation of mag flow meters on existing installations;
- ❖ Small scale civil works;
- ❖ Access tracks;
- ❖ Fencing;
- ❖ Survey works; and
- ❖ Asbestos removal.

TSA encourage all Contractors who have experience in one or more of the above to submit an Expression of Interest, Experience, Technical Knowledge & Capacity Statement (Eol) to be considered for the panel.

Please do not include any pricing.

Please be aware that in submitting an Eol:

- ❖ All Expressions of Interest will be reviewed upon receipt, and continuously throughout the project;
- ❖ Should your circumstances change, please feel free to re-submit an up to date Eol.
- ❖ Appropriately qualified Contractors will be evaluated for inclusion on the panel and may be contacted from time to time by TSA to quote on specific works.

There will be No guarantee of works.

TSA looks forward to working with a variety of qualified Contractors through this Program.

Yours faithfully

Transfield Services (Australia) Pty Ltd – NVIRP Managing Contractor
