## Executive Summary

<b>1</b>	<b>INTRODUCTION</b>	<b>ES-2</b>
<b>2</b>	<b>THE ACTION</b>	<b>ES-2</b>
<b>3</b>	<b>MODERNISATION OF THE GMID</b>	<b>ES-2</b>
<b>4</b>	<b>PROJECT CONTEXT</b>	<b>ES-5</b>
<b>5</b>	<b>THE PRE-MODERNISED IRRIGATION SYSTEM AND THE ENVIRONMENT</b>	<b>ES-6</b>
<b>6</b>	<b>DESCRIPTION OF THE ACTION</b>	<b>ES-8</b>
<b>7</b>	<b>APPROACH TO MANAGING POTENTIAL ENVIRONMENTAL IMPACTS</b>	<b>ES-10</b>
<b>7.1</b>	<b>Water Change Management Framework</b>	<b>ES-10</b>
<b>7.2</b>	<b>Environmental assessment approach</b>	<b>ES-10</b>
<b>7.3</b>	<b>Matters of national environmental significance</b>	<b>ES-13</b>
<b>7.4</b>	<b>Results of environmental assessment</b>	<b>ES-13</b>
7.4.1	Localised effects to wetlands and waterways	ES-13
7.4.2	Potential changes to hydrology	ES-15
7.4.3	Potential ecological impacts to MNES	ES-19
7.4.4	Ramsar wetlands in South Australia	ES-24
<b>8</b>	<b>PROJECT BENEFITS</b>	<b>ES-24</b>
<b>9</b>	<b>CONCLUSION</b>	<b>ES-24</b>

## Chapter 1 – General information

<b>1</b>	<b>GENERAL INFORMATION</b>	<b>1-2</b>
<b>1.1</b>	<b>Introduction</b>	<b>1-2</b>
<b>1.2</b>	<b>Background of the action</b>	<b>1-2</b>
1.2.1	Title of the action	1-2
1.2.2	Objective of the action	1-2
1.2.3	Proponent	1-4
1.2.4	Outline of the action	1-5
1.2.5	Location of the action	1-6
1.2.6	Background to the development of the action	1-10
1.2.6.1	Victorian water resource management policy	1-10
1.2.6.2	Food Bowl Modernisation Steering Committee	1-11
1.2.6.3	Victorian water plan	1-12
1.2.6.4	National Water Initiative	1-12
1.2.6.5	Northern Region Sustainable Water Strategy	1-12
1.2.6.6	Funding	1-13
1.2.7	Other related actions	1-13
1.2.7.1	Irrigation modernisation projects	1-13
1.2.7.2	Sugarloaf Water Pipeline	1-14
1.2.7.3	Gunbower Forest environmental works project	1-14

1.2.8	Current status of the action	1-15
1.2.8.1	Extent of NVIRP modernised operation	1-15
1.2.8.2	Water Change Management Framework	1-18
1.2.8.3	Shortlisting process	1-18
1.2.8.4	Environmental Watering Plans	1-18
1.2.8.5	Relationship between EWPs, NVIRP water savings and the environmental water entitlements	1-19
1.2.9	Consequences of not proceeding with the action	1-20
<b>1.3</b>	<b>Conclusion</b>	<b>1-22</b>

## Chapter 2 – Context of the action – the current system

<b>2</b>	<b>CONTEXT OF THE ACTION – THE CURRENT SYSTEM</b>	<b>2-4</b>
<b>2.1</b>	<b>Overview</b>	<b>2-4</b>
2.1.1	Shared system	2-5
2.1.2	River operating modes	2-6
2.1.3	Minimum flow requirements	2-6
<b>2.2</b>	<b>Murray system configuration</b>	<b>2-8</b>
2.2.1	Operator	2-8
2.2.2	Key elements	2-8
2.2.3	Irrigation outfalls in the Murray System	2-10
2.2.4	Operating modes	2-10
2.2.5	Periods of unregulated flow	2-11
2.2.6	Operating procedures to protect environmental values	2-11
<b>2.3</b>	<b>Goulburn System configuration</b>	<b>2-13</b>
2.3.1	Operator	2-13
2.3.2	Key elements	2-13
2.3.3	Irrigation outfalls in the Goulburn System	2-15
2.3.4	Periods of unregulated flow	2-16
2.3.5	Operating procedures to protect environmental values	2-16
<b>2.4</b>	<b>Composite system</b>	<b>2-20</b>
<b>2.5</b>	<b>Irrigation Areas</b>	<b>2-22</b>
2.5.1	Shepparton Irrigation Area	2-22
2.5.2	Central Goulburn Irrigation Area	2-23
2.5.3	Rochester – Campaspe Irrigation Area	2-23
2.5.4	Pyramid – Boort Irrigation Area	2-23
2.5.5	Murray Valley Irrigation Area	2-23
2.5.6	Torrumbarry Irrigation Area	2-24
<b>2.6</b>	<b>Features of the current GMID system operation</b>	<b>2-24</b>
2.6.1	Shared system	2-24
2.6.1.1	Impacts on the environment	2-26
2.6.1.2	Current water delivery to wetlands and waterways	2-28
<b>2.7</b>	<b>Other waterways and wetlands in the GMID</b>	<b>2-31</b>
<b>2.8</b>	<b>Hydrogeology</b>	<b>2-32</b>
2.8.1	East of the Terrick Terrick Hills	2-33
2.8.1.1	Shepparton Formation	2-34

2.8.1.2 Calivil Formation and Renmark Group	2-34
2.8.2 West of the Terrick Terrick Hills	2-35
2.8.2.1 Shepparton Formation	2-35
2.8.2.2 Calivil Formation and the Renmark Group	2-36
<b>2.9 Policy initiatives to mitigate adverse environmental effects of irrigation</b>	<b>2-36</b>
2.9.1 Basin Salinity Management Strategy	2-39
2.9.2 Salt register compliance	2-39
2.9.3 Management of acid sulphate soils	2-40
2.9.4 Water quality programs	2-40
<b>2.10 Surrounding sources of change</b>	<b>2-41</b>
2.10.1 Irrigation modernisation and other infrastructure modernisation outside NVIRP	2-42
2.10.2 'Unbundled' water rights and water trading	2-42
2.10.3 Commonwealth buyback	2-43
2.10.4 The Living Murray Initiative	2-44
2.10.5 Drought	2-44
2.10.6 Potential effects of climate change	2-48
<b>2.11 Conclusion</b>	<b>2-49</b>

## Chapter 3 – Description of the action

<b>3 DESCRIPTION OF THE ACTION</b>	<b>3-3</b>
<b>3.1 Introduction</b>	<b>3-3</b>
<b>3.2 Components</b>	<b>3-4</b>
3.2.1 Automated Control System	3-4
3.2.2 Increased metering accuracy	3-5
3.2.3 Increased channel efficiency	3-6
3.2.4 Modernised backbone	3-7
3.2.5 Rationalised service points	3-10
<b>3.3 Connections program</b>	<b>3-11</b>
3.3.1 Nature of the connections program	3-11
3.3.2 Connections program process	3-14
3.3.3 Water savings from the connections program	3-14
3.3.4 Costs	3-14
<b>3.4 Modernisation footprint</b>	<b>3-15</b>
<b>3.5 Further possible projects</b>	<b>3-16</b>
3.5.1 Drivers for further projects	3-16
3.5.2 Little Murray Weir	3-17
3.5.3 Swan Hill modernisation	3-18
3.5.4 Modernisation options for the Kerang region	3-18
<b>3.6 Benefits of modernisation</b>	<b>3-19</b>
<b>3.7 Relevant impacts of the action</b>	<b>3-20</b>
<b>3.8 Management of the modernised system to deal with relevant impacts</b>	<b>3-21</b>

3.8.1	General principles	3-21
3.8.2	Water Change Management Framework	3-21
3.8.3	Mitigation water	3-22
<b>3.9</b>	<b>Other requirements for approval</b>	<b>3-22</b>
3.9.1	EES determination	3-22
3.9.2	Planning	3-23
<b>3.10</b>	<b>Alternatives</b>	<b>3-23</b>
<b>3.11</b>	<b>Water savings</b>	<b>3-23</b>
3.11.1	Water savings principles	3-24
3.11.2	Water Savings Protocol	3-25
<b>3.12</b>	<b>Conclusion</b>	<b>3-29</b>

## Chapter 4 – Matters of national environmental significance

<b>4</b>	<b>MATTERS OF NATIONAL ENVIRONMENTAL SIGNIFICANCE</b>	<b>4-2</b>
<b>4.1</b>	<b>Inventory of surveys</b>	<b>4-2</b>
<b>4.2</b>	<b>Output of the Protected Matters Search Tool</b>	<b>4-8</b>
4.2.1	Ramsar wetlands	4-8
4.2.1.1	Ramsar wetlands within and adjacent to the GMID	4-9
4.2.1.2	Ramsar wetlands outside of the GMID	4-9
4.2.2	Listed threatened species and ecological communities	4-11
4.2.3	Listed migratory species	4-11
<b>4.3</b>	<b>Impact pathways</b>	<b>4-12</b>
<b>4.4</b>	<b>Summary</b>	<b>4-20</b>

## Chapter 5 – Hydrological effects

<b>5</b>	<b>HYDROLOGICAL EFFECTS</b>	<b>5-5</b>
<b>5.1</b>	<b>Introduction</b>	<b>5-5</b>
<b>5.2</b>	<b>Methodology</b>	<b>5-6</b>
5.2.1	Assessment process for identifying wetlands and waterways with localised impacts	5-7
5.2.1.1	Environmental assessment report for referral under the Victorian Environment Effects Act 1978	5-8
5.2.1.2	Shortlisting reports for wetlands and waterways	5-9
5.2.1.3	Additional desktop validation	5-10
5.2.1.4	Surface water and groundwater assessment reports of hydrological changes	5-10
5.2.2	Natural variation and climate scenarios	5-10
<b>5.3</b>	<b>Surface water</b>	<b>5-11</b>
5.3.1	Methodology	5-11
5.3.1.1	Representative sites	5-11
5.3.1.2	Climate Scenarios	5-13
5.3.1.3	Investigation of effects	5-14
5.3.1.3.1	Localised effects to wetlands and waterways	5-14
5.3.1.3.2	Within the GMID	5-14
5.3.1.3.3	Sites adjacent/downstream of the GMID	5-15
5.3.2	Results – localised effects to wetlands and waterways	5-17

5.3.3	Results – Sites within the GMID (Kerang Wetlands)	5-18
5.3.4	Results – Effects to sites adjacent/downstream of the GMID	5-22
5.3.4.1	Direct effects on waterways	5-22
5.3.4.1.1	Goulburn River upstream of Goulburn Weir	5-23
5.3.4.1.2	Goulburn River downstream of Goulburn Weir (at McCoys Bridge)	5-24
5.3.4.2	Summary of direct effects	5-25
5.3.4.3	Results – Indirect and downstream effects	5-27
5.3.4.3.1	Gunbower Forest case study	5-27
5.3.4.3.2	Barmah Forest	5-32
5.3.4.3.3	NSW Central Murray State Forests	5-32
5.3.4.3.4	Hattah-Kulkyne Lakes	5-33
5.3.4.3.5	Ramsar wetlands in South Australia	5-33
5.3.4.3.6	Fivebough and Tuckerbil Swamps	5-36
5.3.4.3.7	Lake Albacutya	5-36
5.3.4.4	Summary of indirect effects	5-37
<b>5.4</b>	<b>Groundwater and river salinity</b>	<b>5-38</b>
5.4.1	Methodology	5-38
5.4.1.1	Localised groundwater impacts near channel unit	5-39
5.4.1.2	Within GMID unit	5-40
5.4.1.3	Adjacent/downstream floodplain unit	5-41
5.4.1.4	River salt load	5-42
5.4.1.5	Climate scenarios	5-42
5.4.2	Effects on waterways and wetlands	5-43
5.4.2.1	Localised groundwater impacts near channel unit	5-43
5.4.2.2	Within the GMID unit	5-44
5.4.2.2.1	East of the Terrick Terrick Hills	5-47
5.4.2.2.2	West of the Terrick Terrick Hills	5-51
5.4.2.3	Overall summary of effects within the GMID due to NVIRP	5-57
5.4.3	Adjacent/downstream floodplain unit	5-63
5.4.3.1	Description	5-65
5.4.3.2	Groundwater context	5-66
5.4.3.3	Understanding the floodplain	5-66
5.4.3.3.1	Evapotranspiration on the floodplain	5-67
5.4.3.3.2	Salt storage on the floodplain	5-67
5.4.3.3.3	The importance of flooding	5-67
5.4.3.3.4	Irrigation induced groundwater processes impacting on Gunbower	5-68
5.4.3.4	Modelled depths to watertable beneath forests post-Modernisation	5-68
5.4.3.5	Modelled depths to the watertable beneath the fringes of the forests adjacent to Irrigation Areas	5-71
5.4.3.6	Potential for fresh groundwater to be drained from forests	5-73
5.4.3.7	Changes in lateral groundwater flows and salt load into floodplains	5-77
5.4.3.8	Summary of adjacent/downstream floodplain unit effects	5-77
5.4.4	Changes in river salt load	5-78
5.4.4.1	NVIRP effects on river salinity	5-78
5.4.4.2	Reduction in outfalls during supplying mode	5-79
5.4.4.3	Reduction in outfalls in storing or spilling mode	5-79
5.4.4.4	Reduced diversions	5-79
5.4.4.5	Effects at Ramsar sites	5-80
5.4.4.6	Changes for Goulburn and Murray – average years	5-81
5.4.4.7	Changes for Goulburn and Murray – dry years (10th percentile)	5-84

<b>5.5 Conclusion</b>	<b>5-84</b>
5.5.1 Surface water effects	5-84
5.5.1.1 Localised effects to wetlands and waterways	5-84
5.5.1.2 Effects to sites within the GMID	5-84
5.5.1.3 Effects to sites adjacent/downstream of the GMID	5-84
5.5.2 Groundwater effects	5-86
5.5.2.1 Localised near channel effects	5-86
5.5.2.2 Effects within the GMID unit	5-86
5.5.2.3 Downstream/adjacent effects on the floodplain unit	5-87
5.5.2.4 Effects on salt loads to rivers	5-87

## Chapter 6 – Relevant impacts

<b>6 RELEVANT IMPACTS</b>	<b>6-5</b>
<b>6.1 Introduction</b>	<b>6-5</b>
<b>6.2 Chapter structure</b>	<b>6-5</b>
<b>6.3 Ramsar wetlands</b>	<b>6-6</b>
6.3.1 Significant impact criteria	6-6
6.3.2 Ramsar wetlands within the GMID	6-7
6.3.2.1 Ecological character	6-7
6.3.2.2 Potential changes in ecological character	6-11
6.3.2.2.1 Permanent freshwater wetlands	6-11
6.3.2.2.2 Saline wetlands	6-12
6.3.2.3 Predicted impacts to ecological character	6-12
6.3.3 Floodplain Ramsar wetlands adjacent to the GMID	6-13
6.3.3.1 Ecological character	6-14
6.3.3.1.1 Barmah Forest	6-14
6.3.3.1.2 Gunbower Forest	6-18
6.3.3.1.3 NSW Central Murray Forests	6-20
6.3.3.2 Potential changes in ecological character	6-22
6.3.3.3 Predicted impacts to ecological character	6-23
6.3.3.3.1 Barmah Forest	6-23
6.3.3.3.2 Gunbower Forest	6-23
6.3.3.3.3 NSW Central Murray Forests	6-24
6.3.4 Ramsar wetlands outside of the GMID	6-24
6.3.5 Significance of impacts to Ramsar wetlands	6-25
6.3.6 Recommended management and mitigation measures	6-27
<b>6.4 Species and communities</b>	<b>6-27</b>
6.4.1 Methodology	6-27
6.4.2 Species and communities considered for assessment	6-30
6.4.3 Potential impact pathways	6-32
6.4.4 Effects on habitat types	6-33
6.4.4.1 Saline wetlands	6-36
6.4.4.1.1 Description	6-36
6.4.4.1.2 Potential effects of the action	6-37
6.4.4.2 Permanent creeks and rivers	6-39
6.4.4.2.1 Description	6-39
6.4.4.2.2 Potential effects of the action	6-40
6.4.4.3 Irrigation channels	6-40

6.4.4.3.1 Description	6-40
6.4.4.3.2 Potential effects of the action	6-40
6.4.4.4 Freshwater wetlands	6-41
6.4.4.4.1 Description	6-41
6.4.4.4.2 Potential effects of the action	6-42
6.4.4.5 Floodplain forests	6-43
6.4.4.5.1 Description	6-43
6.4.4.5.2 Potential effects of the action	6-44
6.4.4.6 Terrestrial vegetation	6-45
6.4.4.6.1 Description	6-45
6.4.4.6.2 Potential effects of the action	6-45
<b>6.5 Flora and ecological communities</b>	<b>6-45</b>
6.5.1 Flora	6-45
6.5.2 Ecological communities	6-51
6.5.3 Habitats	6-52
6.5.3.1 Saline wetlands	6-52
6.5.3.2 Freshwater aquatic and riparian environments	6-53
6.5.3.2.1 Regulated watercourses	6-54
6.5.3.2.2 Channel network and linked wetlands	6-54
6.5.3.2.3 Salinity of surface waters	6-55
6.5.3.3 Terrestrial environments	6-55
6.5.4 Significance of impacts to flora and ecological communities	6-57
6.5.5 Recommended management and mitigation measures	6-62
<b>6.6 Invertebrates</b>	<b>6-62</b>
<b>6.7 Frogs</b>	<b>6-62</b>
<b>6.8 Reptiles</b>	<b>6-63</b>
<b>6.9 Fish</b>	<b>6-63</b>
6.9.1 Description	6-63
6.9.2 Habitats	6-64
6.9.2.1 Saline wetlands	6-65
6.9.2.2 Permanent creeks and rivers	6-66
6.9.2.3 Irrigation channels	6-68
6.9.2.4 Permanent open freshwater wetlands	6-69
6.9.2.5 Floodplain forests	6-69
6.9.3 Significance of impacts to fish	6-69
6.9.4 Recommended management and mitigation measures	6-72
<b>6.10 Birds</b>	<b>6-72</b>
6.10.1 Description	6-72
6.10.2 Habitats	6-76
6.10.2.1 Saline wetlands	6-76
6.10.2.2 Freshwater wetlands and waterways	6-77
6.10.2.3 Floodplain forests	6-78
6.10.3 Significance of impacts on bird species	6-79
6.10.3.1 Individual species	6-79
6.10.3.2 Significant occurrences of species	6-83
6.10.3.3 Summary	6-84
6.10.4 Recommended management and mitigation measures	6-85
<b>6.11 Mammals</b>	<b>6-85</b>
<b>6.12 Non-hydrological effects on fauna</b>	<b>6-85</b>

<b>6.13 Summary</b>	<b>6-85</b>
6.13.1 Ramsar wetlands in South Australia	6-90

## Chapter 7 - Proposed safeguards and mitigation measures

<b>7 PROPOSED SAFEGUARDS AND MITIGATION MEASURES</b>	<b>7-3</b>
<b>7.1 Introduction</b>	<b>7-3</b>
<b>7.2 Content of WCMF</b>	<b>7-4</b>
7.2.1 WCMF components	7-4
7.2.2 Expert review of the WCMF	7-5
<b>7.3 Environmental commitments</b>	<b>7-5</b>
<b>7.4 Approach to assessment, management and mitigation</b>	<b>7-8</b>
7.4.1 Assessment conducted	7-8
7.4.2 Site-specific assessment	7-8
<b>7.5 Environmental watering plans</b>	<b>7-9</b>
7.5.1 Sites requiring EWPs	7-9
7.5.2 Sites which do not require EWPs	7-12
7.5.3 Indicative schedule and status report	7-13
7.5.4 Process and content of EWPs	7-13
7.5.5 Timing of development of EWPs	7-14
7.5.6 Interim EWPs	7-14
7.5.7 Process and content for interim EWPs	7-15
7.5.8 EWP review and approval	7-16
7.5.9 EWP reporting	7-16
7.5.10 EWP monitoring	7-16
7.5.11 Provision of mitigation water for EWPs	7-16
7.5.12 Costs of mitigation measures	7-17
<b>7.6 Environmental Infrastructure Register</b>	<b>7-17</b>
<b>7.7 Environmental monitoring, reporting and auditing</b>	<b>7-18</b>
7.7.1 Monitoring and incident response	7-18
7.7.2 Auditing	7-18
7.7.3 Independent audits	7-18
<b>7.8 Management review</b>	<b>7-19</b>
<b>7.9 Handover</b>	<b>7-19</b>
<b>7.10 Future development of the WCMF</b>	<b>7-20</b>
<b>7.11 Conclusion</b>	<b>7-21</b>

## Chapter 8 – Other approvals and conditions

<b>8 OTHER APPROVALS AND CONDITIONS</b>	<b>8-2</b>
<b>8.1 Overview</b>	<b>8-2</b>
<b>8.2 Minister for Planning’s decision on referral under the Environment Effects Act 1978</b>	<b>8-2</b>
8.2.1 Decisions and conditions	8-2
8.2.2 Implementation	8-4
8.2.2.1 Condition 1 - Construction Environmental Management Framework	8-4

8.2.2.2	Condition 2 – Expert Review Panel	8-4
8.2.2.3	Condition 3 – Water Change Management Framework	8-5
8.2.2.4	Condition 4 – Murray and Goulburn Rivers assessment report	8-6
8.2.2.5	Condition 5 - Environmental Watering Plans	8-6
8.2.2.6	Condition 6 – Publicly available documents	8-6
8.2.3	Further referral	8-6
<b>8.3</b>	<b>Planning Framework</b>	<b>8-6</b>
<b>8.4</b>	<b>Other approvals</b>	<b>8-7</b>
8.4.1	Flora and fauna	8-7
8.4.2	Heritage	8-8
<b>8.5</b>	<b>Summary</b>	<b>8-8</b>

## Chapter 9 – Environmental record

<b>9</b>	<b>ENVIRONMENTAL RECORD</b>	<b>9-2</b>
<b>9.1</b>	<b>Environmental record of NVIRP</b>	<b>9-2</b>
<b>9.2</b>	<b>Environmental Management System</b>	<b>9-2</b>

## Chapter 10 – Information sources

<b>10</b>	<b>INFORMATION SOURCES</b>	<b>10-2</b>
<b>10.1</b>	<b>Sources of information</b>	<b>10-2</b>
<b>10.2</b>	<b>Currency of information</b>	<b>10-3</b>
<b>10.3</b>	<b>Reliability of information</b>	<b>10-3</b>
<b>10.4</b>	<b>Uncertainties in the information</b>	<b>10-4</b>
<b>10.5</b>	<b>Conclusion</b>	<b>10-5</b>

## Chapter 11 – Economic and social matters

<b>11</b>	<b>ECONOMIC AND SOCIAL MATTERS</b>	<b>11-3</b>
<b>11.1</b>	<b>Introduction</b>	<b>11-3</b>
<b>11.2</b>	<b>Consultation</b>	<b>11-3</b>
11.2.1	Food Bowl Modernisation Steering Committee	11-3
11.2.2	NVIRP activities	11-4
11.2.3	Northern Region Sustainable Water Strategy	11-7
11.2.4	Consultation outcomes	11-7
11.2.5	Consultation on draft PER	11-8
<b>11.3</b>	<b>Identification of affected parties</b>	<b>11-8</b>
<b>11.4</b>	<b>Economic</b>	<b>11-10</b>
11.4.1	Economic context	11-10
11.4.2	Without modernisation scenario	11-10
11.4.3	Economic benefits and costs	11-11
11.4.3.1	Productivity improvements	11-11
11.4.3.2	Business size	11-12
11.4.3.3	Value of activity	11-13

11.4.3.4 Enhanced service levels	11-13
11.4.3.5 Improved water use efficiency	11-14
11.4.4 Avoided increases in water charges	11-14
11.4.4.1 Regional economic impacts	11-15
11.4.4.2 Costs	11-15
11.4.4.3 Retention of irrigation water in GMID	11-16
11.4.5 Summary	11-16
<b>11.5 Social</b>	<b>11-16</b>
11.5.1 Social profile	11-16
11.5.2 Effects of drought	11-18
11.5.3 Projections	11-19
11.5.4 Changed public access to channels	11-20
11.5.5 Social benefits and costs	11-21
<b>11.6 Environment</b>	<b>11-23</b>
<b>11.7 Benefits of water savings</b>	<b>11-25</b>
11.7.1 Water for the environment	11-25
11.7.2 Water for irrigators	11-27
11.7.3 Water for Melbourne	11-27
<b>11.8 Conclusion</b>	<b>11-28</b>

## Chapter 12 - Conclusion

<b>12 CONCLUSION</b>	<b>12-2</b>
<b>12.1 Introduction</b>	<b>12-2</b>
<b>12.2 The action</b>	<b>12-2</b>
<b>12.3 Matters of national environmental significance</b>	<b>12-3</b>
